Sharing experience : shaping practice

**Who are we and  
where are we from?**

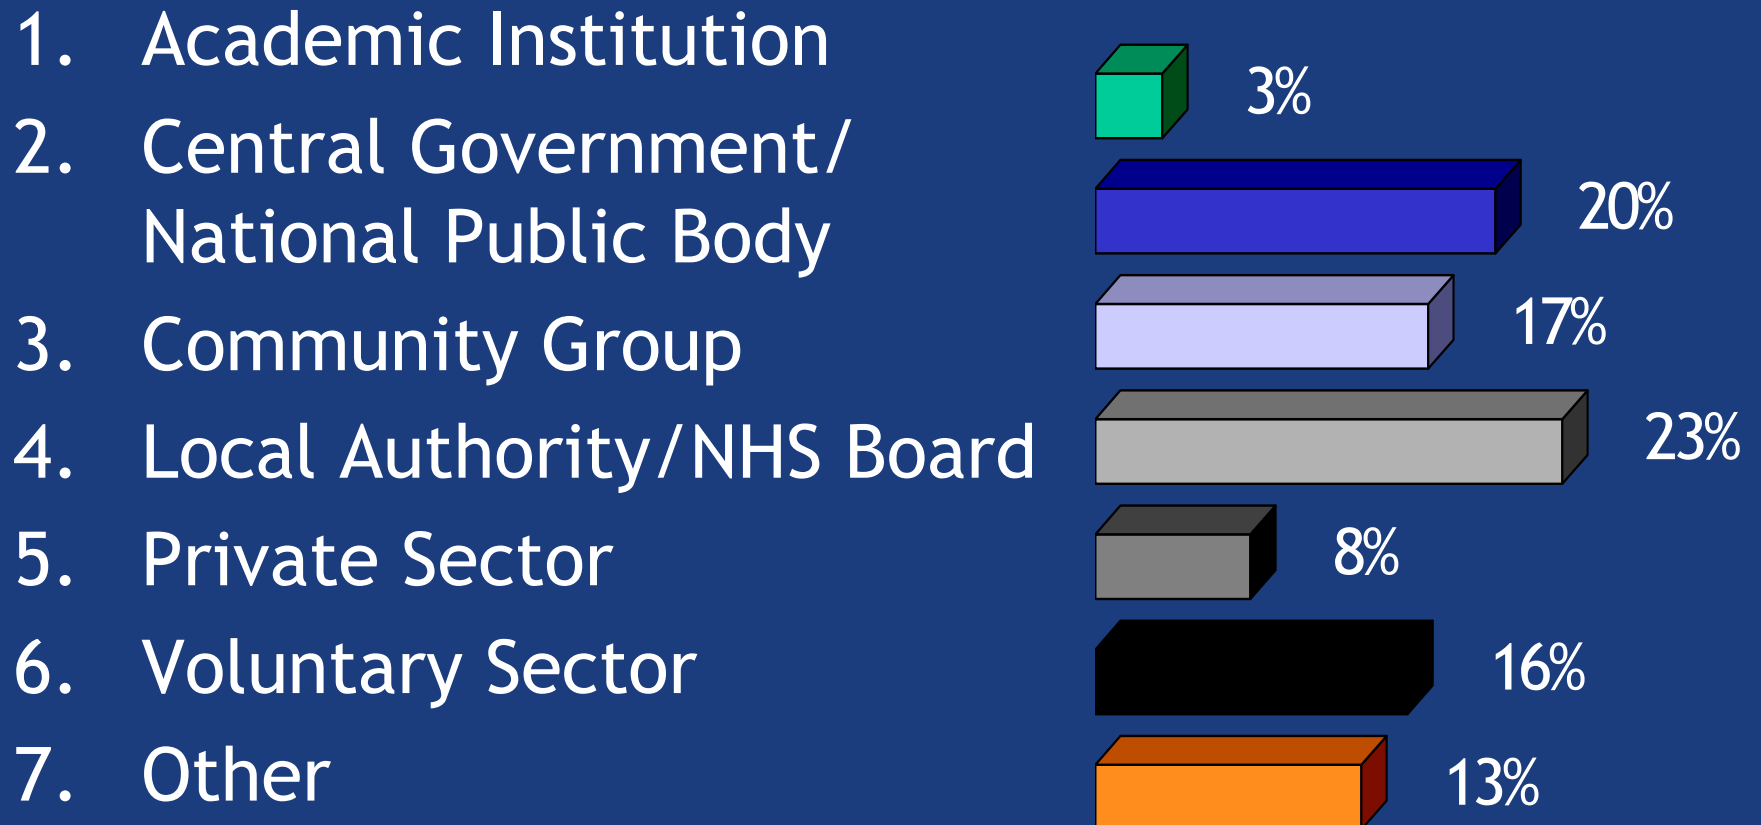

# What is your choice of the best breakfast for maximum resilience before a conference like this?

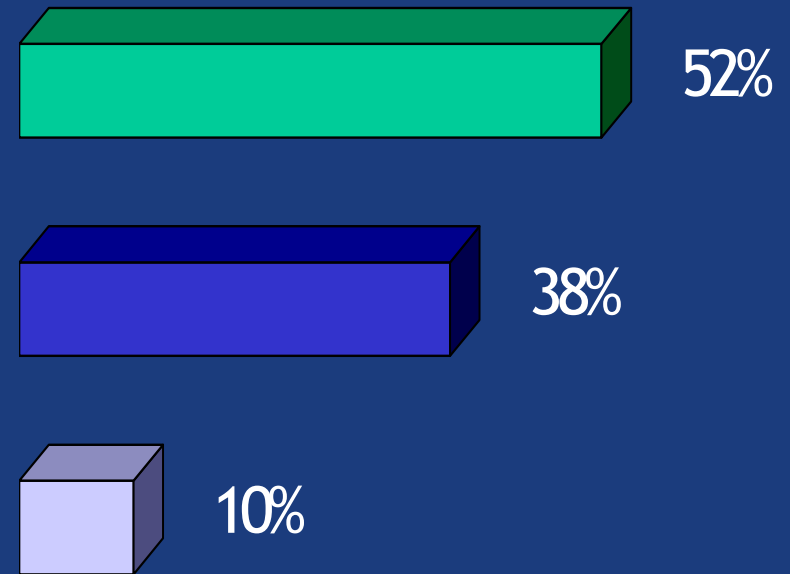

# Which of the following sectors *best describes* the organisation you are representing today?

## In *broad terms*, which geographical area is your organisation concerned with?

1. Scotland-wide
2. A region, district or city
3. A single small town or neighbourhood (population under 10K)

With current resource constraints, which *one* of the following should be the investment priority for most realistically supporting resilient regeneration?
