Main Polling Questions

Q1: The Scottish Government are poised to enter into an agreement with the Scottish Green Party for this Parliamentary Session. What is your general view of its actions and commitments towards climate change so far?

- Commendable
- Don't go far enough

- There are more urgent priorities
- Too early to judge

Q2. How confident are you that your organisation fully understands the targets that we are going to have to meet regarding the climate crisis?

- Very Confident
- Reasonably confident
- Doubtful
- It is not a priority

Q3. Some organisations are campaigning for stopping the demolition of building stock because whole life carbon costs mean maintaining and improving what we have would result in a lower carbon footprint. Which statement do you most agree with?

- Replacing ageing homes should be a priority
- Retrofit and maintenance should be a priority
- A balance between demolition and retrofit has to be found

Q4. How confident are you that the people most in need of having their living conditions improved have some control over what the improvements are and how they are delivered?

- Very Confident
- Reasonably confident
- Doubtful
- It is not a priority
